# What's Inside...

## How much is a Petabyte?

**It's equal to 1,024 TB or over 1 quadrillion bytes! This large chunk of data is more than 745 million floppy disks or 1.5 million CD-ROM discs. It's over 3.4 years of 24/7 Full HD video recording or over 4,000 digital photos per day over your entire life.**

## Learn from The Network Guy

**It's hard for me to remember my passwords. Is it okay to use the same passwords for my PenTeleData account and for other important accounts, such as banking or insurance?**

**The Network Guy:**

No, you should never use your PenTeleData Account password on another website. If you enter your password in an external website and it's compromised, someone could try to sign in to your PenTeleData Account with the same information. This is also true for your other accounts, so it's important to choose unique passwords for each one.

## PenTeleData is Hiring!

**Are you looking for some extra money? We're hiring, including some great part time opportunities!**

**As always, we list the current job openings at www.ptd.net/careers.**

*We are an equal opportunity employer.*

## Fun Tech Facts

More than 6,000 new computer viruses are created and released every month. 90% of emails contain some form of malware.

The Firefox logo isn't a fox. It's a red panda.

Samsung is 38 years and one month older than Apple.

One Petabyte (PB) equals 1024TB. To put this in perspective, a 50PB hard drive could hold the entire written works of mankind from the beginning of recorded history in all languages.

Alexa is always listening your conversations. Alexa stores all your dialogue history in the cloud to improve the Alexa experience.

On average, people read 10% slower from a screen than from paper.

The first computer mouse was made in 1964 by Doug Engelbart. It was rectangular and made from wood!

On average, there is only one reply per 12 million spam emails sent.

Surgeons that grew up playing video games more than three hours per week make 37% fewer errors and have 42% faster completion rate when performing laparoscopic surgery and suturing.

NASA's Wi-Fi Internet speed is 91 GB per second.

The first known computer virus was developed in 1971. Named Creeper, it was made as in experiment just to see how it spread between computers. The virus simply displayed the message: "I'm the creeper, catch me if you can!"

## PenTeleData is Proud to Serve Manheim, PA

**Manheim is a charming small-town set in a rural landscape surrounded by sprawling countryside and rolling hills.**

Founded in 1762 by Henry William Stiegel, Manheim was a safe haven during the Revolutionary War for the families of Colonial Patriots Robert Morris, the great Financier, Dr. Joseph Shippen, Surgeon General of the Continental Army, and General Richard Bache, the Colonial Postmaster General and husband of Benjamin Franklin's daughter.

Named after Mannheim, Germany and best known for Stiegel Glassworks, Manheim is steeped in colonial history, awash with a wide array of early American architecture and has become an artist and maker's haven.

Present day Manheim offers a mix of dining and retail options within walking distance. Just outside of town, you can tour a working dairy farm and climb a one-hundred-foot silo observation tower at Kreider Family Farms, enjoy award-winning PA wines at Waltz Vineyards Estate Winery & Tasting Room and experience a cast of costumed characters, craft beverages and delicious food at the Pennsylvania Renaissance Faire. On Tuesdays, stop by Root's Country Market and Auction, the oldest single family-run country market in Lancaster County. Root's Market features a produce auction as well as fresh meats, bakery items, handmade crafts, antiques, and collectibles from over 200 stand holders.

Manheim is also home to Spooky Nook Sports, the largest indoor sports complex in the country, complete with rock climbing, an arcade, summer camps, and more.

Manheim has several art galleries, makers' experiences, cozy cafés, unique retail shops, and craft brewery and distillery restaurants, and well-appointed lodging options.
